Creating a Public Health Action Plan

Saba Brelvi, MPH

November 4, 2016

Where do you find public health problems?

New Public Health Practitioner's Challenge

- Problems to solve
- Data
- Creative ideas
- Enthusiasm
- External pressure to solve problems

The temptation is to:

Start with Solutions!

Public Health Problem-Solving Paradigm

1. Defining the Problem
2. Measuring the Magnitude
3. Key Determinants
4. Strategies for Intervention and Prevention
5. Policy or Priority Setting
6. Implementing and Evaluating

Practice: Tobacco Use among Young Adults in UAE

1. Defining the Problem
2. Measuring the Magnitude
3. Key Determinants
4. Strategies for Intervention and Prevention
5. Policy or Priority Setting
6. Implementing and Evaluating
